Research Topics Description
<p>Research Topic 1.1: Mapping Ecofeminism: research, teaching, activism</p> <p>Ecofeminism is both a field of study and a form of activism that can be shared and communicated. It is nevertheless still misunderstood and not well known in its multifariousness and complexity in Italian culture.</p> <p>The project aims at mapping the panorama of Ecofeminist theories and producing a user friendly visualization of collected data. Further actions and outcomes of the project will include a series of workshops to be proposed to schools and citizens and a book especially aimed at a large audience.</p> <p>The activity will be carried out both at the University and in collaboration with a graphic design studio, in order to put forward an innovative project of data visualization.</p>
