CARTA EUROPEA DEI RICERCATORI

BANDI E OPPORTUNITA'

H2020 - EUROPEAN GREEN DEAL CALL

The European Commission has opened its latest, and probably most ambitious, call H2020: 1 billion for projects to help the EU respond to the climate crisis and help protect Europe's biodiversity. It aims to mobilise research and innovation to promote a fair and sustainable social transition, with the aim of "leaving no one behind".

This Green Deal call differs in important respects from previous H2020 calls. Given the urgency of the challenges it addresses, it aims to achieve clear and measurable results in the short and medium-term, but with a long-term perspective for a change. There are fewer but more specific, broader and visible actions focusing on rapid scalability, dissemination and adoption.

The Horizon 2020 Green Deal Call includes 8 thematic areas and 2 horizontal areas.

1. Increasing climate ambition
2. Clean, affordable and secure energy
3. Industry for a clean and circular economy
4. Energy and resource-efficient buildings
5. Sustainable and smart mobility
6. Farm to fork
7. Biodiversity and ecosystems

9. Strengthening knowledge

10. Empowering citizens

The deadline for submission of proposals is **26 January 2021**, and the selected projects are expected to start in autumn 2021.

H2020 - TOPIC "EUROPEAN MUSEUM COLLABORATION AND INNOVATION SPACE"

Museums and cultural organisations have been hit by the COVID-19 crisis, some of them significantly, by the loss in revenues. At the same time, the crisis has speeded up the digital transformation of the sector. The HORIZON2020 topic "European Museum Collaboration and Innovation space" (DT-TRANSFORMATION-24-2020) will provide the opportunity for museums to work with creative and technology partners, as well as with each other through small, experimental projects to apply digital technologies to a selected area of work or activities, in an innovative way.

Coordination and Support Action.

Opening date 01.10.2020; deadline 12.01.2021, at 17.00 (Brussels time).
