ESPON 2030 PROGRAMME - Thematic Action Plan on "Governance of new geographies"

The 'Governance of new geographies' is a very comprehensive and cross-cutting TAP theme. It aims to create territorial evidence and recommendations in terms of governance of emerging new geographies at European level, national and regional levels which are linked to new functional territories and territories facing state of uncertainty or challenges concerning their development paths.

ESPN 2030 PROGRAMME - Thematic Action Plan on "Climate neutral territories"

The objective of this TAP is to develop the knowledge base as regards the territorial aspects of a green transition towards a climate neutral economy. Through observations for the entire ESPON Programme area, this TAP intends to provide new insights and possible pathways for all types of territories to decrease carbon emissions, increase carbon sinks, create, enhance and manage green infrastructure (GI), support the energy transition, green digital transition and a shift towards a green and circular economy.

Deadline: **31/01/2022**

More information: <https://www.espon.eu/climate-neutral-territories>

ESPN 2030 PROGRAMME - Thematic Action Plan on "Places resilient to crises"

The TAP on 'Places resilient to crises' is very comprehensive and cuts across different thematic fields. It aims at creating territorial evidence on the vulnerability of European territories to different types of crises, emergent in environmental, economic, social, sanitary and digital fields of activity. The evidence to be gathered shall also inform about the specific strengths of European territories that enable them to withstand crises as well as their specific development opportunities that can be tapped to better manage the effects of crises.

Deadline: **31/01/2022**

More information: <https://www.espon.eu/resilient-places>

ESPON 2030 PROGRAMME - Thematic Action Plan on "Perspective for all people and places"

This TAP intends to provide new insights on how to mitigate the consequences of the current COVID pandemic and other subsequent territorially relevant challenges, with a view on reducing territorial fragmentations and socio-economic fallouts in particular for vulnerable groups or regions. This TAP aims at promoting the diversity and the potentials of European territories as a key determinant to secure sustainable territorial development beyond sole economic growth, facing global challenges and promoting local heritage, capacity or specificity.

Deadline: **31/01/2022**

RESEARCHFOREUROPE

MANIFESTO "RESEARCH AND INNOVATION FOR THE FUTURE OF EUROPE"

L'Ateneo ha sottoscritto l'adesione al Manifesto "Research and Innovation for the Future of Europe", promosso da diverse organizzazioni del mondo della ricerca e dell'innovazione dell'UE.

Il Manifesto intende riaffermare la centralità della ricerca e dell'innovazione per il futuro dell'Europa e dei suoi cittadini e contribuire a porre ancor di più la R&I al centro del dibattito sulle future sfide e priorità dell'UE.

L'appello invita quindi la Conferenza sul futuro dell'Europa, che ha preso il via la scorsa primavera ed entra ora nella sua fase decisiva, a discutere e approfondire nei prossimi mesi le tematiche di ricerca e innovazione, contribuendo così a rimediare all'assenza della R&I tra i temi prioritari individuati inizialmente dagli organizzatori della Conferenza.

È possibile aderire anche individualmente all'iniziativa, collegandosi al sito: <https://www.researchforeurope.eu/>
