### WORK HISTORY

2024 2025	PROFESSIONEARCHITETTO - Remote EDITOR   GRAPHIC DESIGNER	Editor and contributor for the online magazine, writing and editing articles, news, and content on architecture, urbanism, and design.
--------------	---	--

I am a determined designer with an international background and a strong passion for humanitarian and social architecture. My academic journey took me through two cities, Naples and Bologna, expanding my horizons to Colombia, where I further developed my English and Spanish skills.

My distinctive qualities include creativity, meticulous attention to detail, strong organizational skills, and a collaborative team spirit. These characteristics have been essential for integrating effectively into new working environments. I apply my diverse skills to make meaningful contributions to team projects.

What fuels my passion for design is its unique ability to *transform abstract concepts into tangible realities*.

## ACADEMIC PROJECTS

### PEDIATRIC CLINIC IN SENEGAL

YACademy | ARCHITECTURE FOR HUMANITY

The 2022-2023 workshop focused on the design of a paediatric medical clinic in Senegal and was led by the TAM Associati studio. During this experience, participants had the opportunity to engage with key aspects of humanitarian architecture and explore the theme of architecture for children's healthcare.

### SOCIAL HOUSING PER IL CAMPO BIPIANI DI PONTICELLI, NAPOLI

Master's thesis project | Università degli studi di Napoli Federico II

After more than forty years, the residents of the Bipiani are calling for solutions, seeking to draw attention to the issue of asbestos, which is closely linked to public health. The aim of this thesis is to propose urban redevelopment strategies for the Bipiani settlement, providing a response to the growing housing emergency.

## WORK PROJECTS

### MATERNITY CENTER IN SENEGAL

Kaira Looro Competition | EDIZIONE 2024

Kaira Looro is a design competition with the aim of adopting sustainable architectural models for humanitarian purposes, to improve living conditions in developing countries. The proposal for the maternity centre in Senegal aims to create a sanctuary for pregnant women, combining functionality with a care environment.

### LA BELLEZZA CHE CURA EXHIBITION

El Equipo Mazzanti | In collaboration with MAXXI, Comune di Jesi and UNIVPM

Event dedicated to the colombian architect Giancarlo Mazzanti. Interactive exhibition of his works, a conference at the Teatro Pergolesi and MAXXI in Rome and various activities organized with secondary schools of the city of Jesi to involve students with gaming devices

### STUDENT CENTER - COLEGIO BILINGÜE DE SANTA MARTA

El Equipo Mazzanti

An exploration of different ways to integrate an outdoor learning space into the local vegetation. It features a flexible structure that blends with the existing trees, creating a space where rest, dialogue, and play become complementary forms of learning."
